**Midtown Residents Association  
Emergency Preparedness Committee**

Dear Neighbor,

The Midtown Residents Association Emergency Preparedness Committee has established a “Block Preparedness Coordinator” program. I have volunteered to be one of the Block Preparedness Coordinators (BPC) for our block.

Each Block Preparedness Coordinator (BPC) receives training as well as civic and community information and works with the Midtown Residents Association Emergency Preparedness Committee Chair, Annette Ashton. The information (announcements, meetings, etc.) will be related to our safety (as in the “Neighborhood Watch” program) and to our survival in the event of a catastrophic event (such as, earthquake, pandemic flu, chemical spill, or even a prolonged power outage). The goal of the program is for our neighborhood to become self-reliant. This can be fun too, with social events such as block parties and sharing good news among neighbors. For more on the program see [www.paneighborhoods.org/ep](http://www.paneighborhoods.org/ep).

What I need from you now is your basic information, such as names of people in your home, how to contact you, etc. This is important to have in case of emergency! Please know that this data will remain confidential and will be used only as mentioned above.

I will drop by your home to introduce myself soon!

Your Block Preparedness Coordinator (BPC),

Name	
Email	
Home phone	
Cell phone	
Address
